

WeeklyReport_2018-05-21_05-27_C

Progress

1 Graduation Project

- paper has been modified yet

■ *next week I will make the ppt for the final reply*

- I haven't completed the visualization feature and the yolo's training yet

■ *next week is the last week I will try*

2 Paper Reading

- CrystalBall: A Visual Analytic System for Future Event Discovery and Analysis from Social Media Data

■ *I made the report on this paper this week and made the ppt*

- Line: Large-scale information network embedding

3 GraphLayout

- just read the largevis and DRgraph paper

4 ACM

- complete the euler 210, and another difficult problem
- haven't do the atcoder this week

5 Front-End Study

- learn js course(40%) on the hackerrank
- learn html course(70%) on the mdn

Next week I would go back to HDU, prepare for the graduation reply and graduation photograph and party.

Recent perspective

WORK	DEADLINE	NOW
prepare graduation project	next Sun	ppt, some code modify
acm problems	next Sun	atcoder
js study	next Tues	compelet the hackerrank course
largevis and drgraph paper	next Sun	understanding

Long-term perspective

WORK	DEADLINE
graduation project	6.9
know how to use react	6.30
know how to use d3	6.30
